QUARTERLY REVIEW: Gains in Proof 3-Cent Silver & Dated Double Eagles

BY JOHN FEIGENBAUM, PUBLISHER

This edition of the Quarterly III publication is one of our last productions for the calendar year of 2015. Ever since I took over as publisher of CDN in August of this year, Patrick Ian Perez (editor) and I have spent countless hours working through the various publications and taking our time to focus on specific series to bring their prices up to date. We are also working on the layout of the publications to make them more readable.

In this December edition of the Quarterly III, we have honed in on the proof 3-cent silver and double eagle series. Both series were in sore need of review and interestingly, both series have generally seen nice gains since their last thorough examination.

In the September 2015 Quarterly we first took a good look at the type 1 Liberty twenties. We were surprised to see price gains for many of these issues since then. Taking a hard look at type 2 and type 3 Liberty twenties shows market gainers overall, especially for better dates, with an emphasis on Carson City issues and the low-mintage P-mints. All of us who follow this series are aware that CC double eagles seem to gain in value year over year, however we have noted that the 1870-CC seems to have topped off a bit and settled on this month's sheet.

Some of our favorite "sleepers" in this series include the very low mintage type 3 issues, including the 1881, 1882, 1885, 1886 and 1891. The presence of these coins

has largely been exempt from the European hoards and precious few survive in any grade. Likewise,

we feel that the 1902 and 1905 Philadelphia issues are among the most overlooked in the entire series. Many other late-nineteenth century and early-twentieth century issues are surprisingly scarce in top grades, but the market is currently not enthusiastic. If you are a contrarian collector, perhaps there is value for you here.

In the next edition of Quarterly III (March 2016) we will complete the pricing reviews for half eagles and eagles. There should be some exciting data to review at this time thanks to Heritage FUN Show and Stack's-Bowers sale of the Pogue Collections. Until then, we look forward to your feedback. You can reach us at editor@greysheet.com. We look forward to hearing from you. In the meantime, we wish you a happy, healthy and prosperous New Year!

The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly rotate every three months. The following outlines the publishing schedule: Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades! Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades! Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades! Plus, the Quarterly regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades! Combining the weekly, monthly and quarterly Greysheets included in your subscription, subscribers to the CDN now receive current pricing information on every regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information and current auction data. These wholesale prices result from our monitoring all possible sight-seen transactions and offers to buy or sell. The coins may be certified or "raw", but the grading must adhere to the current leading standard. Prices also consider activity in the certified sight-unseen market (PCGS & NGC).

The CDN Quarterly reports the highest wholesale prices seen nationally, which assume a willing and knowledgeable buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These wholesale prices should not be misinterpreted by retail clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of sight-seen trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

PLATINUM NIGHT® & SIGNATURE® AUCTIONS

January 6-11, 2016 | Tampa | Live & Online

1894-S Barber Dime, Branch Mint
PR66 PCGS, CAC

One of "The Big Three," the 1894-S Barber dime is an American classic, the stuff of collector dreams since its first mention by Augustus Heaton in 1900.

Only eight or nine examples survive from the 24 coin mintage, and price records have exceeded \$2 million.

Although every collector would love to own an example, only a select few will ever realize that cherished dream.

Heritage Auctions is privileged and delighted to offer the finest PCGS-graded example of this celebrated rarity in just its fourth auction appearance.

Visit HA.com/1231 to view the catalog and place bids online beginning mid-December.
